MULTI-MINISTRY TASK FORCE & SPORTSG DEFINITION OF FULLY VACCINATED INDIVIDUALS

As fully vaccinated individuals have better protection against infection and severe illness, they may participate in activities in high-risk settings.

An individual is considered **fully vaccinated two weeks after** he or she has received **two doses of Pfizer-BioNTech/Comirnaty, Moderna, or any WHO EUL vaccines such as Sinovac-CoronaVac, Sinopharm, and AstraZeneca.**

- **Unvaccinated individuals with a valid negative result on a Pre-Event Test taken in the past 24 hours at an MOH-approved medical service provider** before the expected end of the class/programme/event or,
- **Recovered COVID-19 individuals**, are of similarly lower risk, and may also join in the group of fully vaccinated individuals.

Only sports facilities that have implemented vaccination-differentiated SMMs (VDS) are allowed provision of common equipment.
