

## **Club Clarification to Members: Resignation of an MC member**

The Club is aware of a WhatsApp message currently in circulation containing statements about a former Management Committee (“MC”) member. We wish to clarify that the content of this message is inaccurate and misleading, and does not reflect the full and factual circumstances.

For clarity, the individual referred to is an ex-MC member who ceased to serve on the Management Committee in September 2025. This followed a disciplinary proceeding conducted in accordance with the Club’s Constitution, where a seven-month suspension was imposed arising from conduct that breached the Club’s rules and standards.

In line with governance requirements, the cessation of his role on the Management Committee was a direct consequence of this suspension, as provided under the Club’s Constitution:

Rule 31(e): “Any member of the Committee absenting himself without explanation satisfactory to the Committee from three out of five consecutive meetings shall cease to be a member thereof.”

Members should therefore note that the resignation was not a matter of voluntary disagreement on governance issues, but arose from disciplinary action and its consequential effect under the Constitution.

The Club takes governance, conduct, and accountability seriously, and all matters are handled in accordance with established rules and due process. We encourage members to rely on official Club communications and verified information, and to exercise caution when encountering unverified claims circulated on informal platforms.
