

Bear with Us. A Better Club Is Taking Shape.

Dear Members,

Our transformation works are in full swing, which is exciting, but we know it can get a little too lively at times. Staying in to work or relaxing with a construction soundtrack isn't always easy!

We encourage members to use their own headphones to help tune out the background noise. If that's not available, you may request a pair of earplugs from our Front Office. It's a small gesture to help minimise the noise while you focus, unwind, or enjoy your time in the Club.

Thank you for your patience as we build a better SRC together.
